

NAILS 2 U

A Mobile Nail Boutique

Some of the first things noticed on a woman are her hands and feet. They can tell people a lot about you and how well you take care of yourself. But with so little time in our hectic and fast-paced lives, we tend to neglect ourselves and forget to give our hands and feet the treatment they truly deserve. You may have heard of a few good nail salons here and there but still never get round to going because you don't get the time, or because you can't be bothered to drive all the way there and spend time looking for a parking space. Or maybe you have kids and don't want to leave them behind. Enter Nails2u: Kuwait's exclusive first mobile nail service which gives you professional nail salon treatment in the comfort of your own home!

Nails2u provides a unique experience for their customers, incorporating a high level of professionalism and an array of treatments to choose from that include basic manicures or pedicures to indulging sweet treatments, massages and private pamper parties. Nails2u is the clever creation of Aram Razzouqi, a talented young lady zealous about caring for her own hands and feet. Aram felt she wanted to spread the word by opening her own professional nail salon and her dream came true this time last year when she opened Nail Express in Mishref. After successively building a loyal customer base, Aram experienced

problems and had to close for a while. The phone didn't stop ringing with customers asking to get their beloved hands and feet treatments, so Aram sent the nail technicians to their homes and Nails2u was born!

All you need to do is book an appointment two days in advance and marvel at the five star service that awaits you. My door bell rang at 10am sharp as I had requested and I was pleasantly surprised to see two very polite young ladies dressed in the Nails2u uniform pulling behind them Nails2u bags. Nails2u use only professional OPI, Bella Lucci and Cake products ensuring the best quality nails that won't chip at the first sight of action. Indulge your chocolate cravings with Nails2u's Sweet Tooth menu while the pros polish your fingers and toes. The girls started off by cleaning and trimming my nails with equipment that came out of a fresh, sterilized packet. (Aram stresses that hygiene and cleanliness are of very high importance in her business). The next step was an extremely yummy chocolate sugar scrub that left my skin unbelievably silky, smooth and glowing. The accompanying massage improves and increases the blood circulation, suppleness and flexibility as explained by one of the girls. The indulgence didn't stop there. My hands and feet were covered by a deep chocolate mask for a little while before I had my ultimately professional

and flawless French manicure done. Other treatments include pumpkin pie and a slice of cupcake! Nails2u offer comforting massages for the hands, feet, shoulders or full body if you're really stressed out!

Nails2u also offer 'The Private Pamper' service; is a manicure and pedicure party specially organized for you and your girlfriends, whatever the occasion! It could be your birthday, a bridal shower, or post natal pampering session, or a 'just-because' gathering (because girls deserve to be pampered for no particular reason). Aram states how important it is for ladies to have regular nail treatments as they will reduce your stress levels and will do wonders for your self-esteem. Nails2u will organize everything from A-Z including finger foods and drinks to set up the ambience for a wonderful and ultimately relaxing night for you and your friends.

Now what more could you ask for? They come right to your door and give you the most indulging and relaxing treatment and you don't have to move an inch. All with prices that are unbelievably affordable! Nails2u – every girls dream actually come true!!

Nails2u can be reached by calling 773 6695 or emailing info@nails2u.net. Appointments can be made from 9 am–9 pm from Monday to Saturday. Check them out online: www.nails2u.net
